HABITAR O PRESENTE VIVER O FUTURO

A Love Tiles cria coleções cerâmicas para habitar o presente e o futuro, plenas de beleza, dotadas de qualidade de um design exclusivo. A mesma beleza e a mesma harmonia que sonhamos para o mundo em nosso redor. Para isso a Love Tiles cria e protege, reduzindo ao mínimo o impacto ambiental da sua atividade, por meio da constante pesquisa da eco sustentabilidade no local de trabalho, nas matérias utilizadas e nos processos produtivos, como demonstram as certificações ambientais obtidas.

Queremos contribuir para que vivamos num mundo melhor, sabendo que a eco sustentabilidade é desenvolvimento olhando para o futuro...

Este é o nosso esforço quotidiano e a nossa responsabilidade social.

INHABIT THE PRESENT LIVE THE FUTURE

Love Tiles creates ceramic collections to live the present and the future, surrounded by beauty, protected by the quality of an exclusive design of living in total freedom. The same beauty and marvelous harmony that we dream for the world around us. For this, Love Tiles creates and protects, by reducing to its minimum the environmental impact coming from its activity, through the constant research of the total eco-sustainability in the working environment, on the materials used and in the productive processes, as the obtained environmental certificates demonstrate.

We want to contribute for a better world and only what is really eco-sustainable can be considered as development with future vision...

This is our daily commitment and our social responsibility.

HABITER LE PRÉSENT VIVRE L'AVENIR

Love Tiles crée des collections pour vivre le présent et l'avenir, entourées par la beauté, protégées de la qualité d'un design exclusif à vivre en toute liberté. La même beauté et la même harmonie dont nous rêvons pour notre monde. C'est pour cette raison que Love Tiles crée et protège en réduisant au maximum l'impact environnemental de son activité, grâce à la permanente recherche de l'équilibre écologique dans l'environnement de travail, dans les matières utilisées et dans le processus productif, comme le démontre les certifications environnementales obtenues.

Nous voulons contribuer à ce que vous viviez dans un monde plus beau, plus écologique donc plus développé et orienté vers l'avenir. Ceci est notre engagement quotidien et notre responsabilité sociale.

WOHNEN IN DER GEGENWART UND DIE ZUKUNFT ERLEBEN

Love Tiles kreiert Keramikkollektionen mit dem Konzept "wohnen in der gegenwart und die zukunft erleben". Diese Kollektionen zeichnet eine außergewöhnliche Schönheit, höchste Qualität und exklusives Design aus. Dasselbe Schönheit und Harmonie, die wir uns für die Welt in unserem Umkreis erträumen. Danach richtet Love Tiles ihre Produktion aus: Für die Herstellung benutzen wir umweltschonende Verfahren, m.a.W. die Umwelt auswirkungen sind auf das Mindestmaß reduziert. Die gelingt uns durch konstante Forschungsarbeiten auf dem Gebiet der Öko-Nachhaltigkeit am Arbeitsplatz, bei den verwendeten Materialien und bei den Herstellungsverfahren. Davon zeugen die Umweltzertifikate, mit denen wir ausgezeichnet wurden.

Wir möchten einen Beitrag für eine bessere Welt leisten, wohl wissend, dass die Öko-Nachhaltigkeit Entwicklung in die Zukunft bedeutet.

Dies ist unser alltägliches Anliegen und unsere soziale Verantwortung.

ЖИТЬ В НАСТОЯЩЕМ И БУДУЩЕМ

Love Tiles создает керамические коллекции, чтобы жить настоящим и будущим, в окружении красоты эксклюзивного дизайна, защищенные качеством, созданные для жизни в полной свободе. Та же красота и изумительная гармония, о которых мы мечтаем, для мира вокруг нас.

Love Tiles создает свою продукцию и в то же время защищает природу, сводя к минимуму воздействие на окружающую среду, путем постоянного модернизирования и исследования используемых материалов и производственных процессов, наглядно это демонстрируют экологические сертификаты. Мы хотим внести свой вклад в лучший мир, и только то, что действительно eco-friendly, можно рассматривать как развитие с перспективой на будущее ... Это наша повседневная обязанность и наша социальная ответственность

ABITARE IL PRESENTE VIVERE IL FUTURO

Love Tiles crea collezioni ceramiche per abitare il presente e il futuro, piene di bellezza, con la qualità di un design unico. La stessa bellezza e armonia che sogniamo per il mondo che ci circonda. Per questa ragione Love Tiles crea e protegge, riducendo al minimo l'impatto ambientale delle proprie attività, attraverso la costante ricerca dell'ecosostenibilità sul posto di lavoro, nei materiali utilizzati e nei processi produttivi, come dimostrato dalle certificazioni ambientali ottenute.

Vogliamo contribuire a costruire un mondo migliore, sapendo che l'ecosostenibilità è sviluppo con uno sguardo al futuro.

Questo è il nostro sforzo quotidiano e la nostra responsabilità sociale.

A marca GREENGUARD certifica produtos que garantem os mais elevados padrões de qualidade do ar em espaços interiores.

Todas as coleções LOVE TILES em grés porcelânico, monoporosa e grés laminado obtiveram a certificação GREENGUARD GOLD, ou seja, a norma UL com os mais rigorosos limites relativos às emissões de COV (Compostos Orgânicos Voláteis), estando, assim, em condições de garantir as melhores condições de salubridade às pessoas que vivem e habitam espaços interiores. Por conseguinte, podem ser utilizadas em ambientes como escolas e estabelecimentos de saúde, frequentados por pessoas sensíveis, como crianças e idosos.

A GREENGUARD GOLD é uma certificação amplamente reconhecida e exigida pelos programas de construção sustentável e pelos regulamentos de projeto e construção em todo o mundo, tais como o LEED (internacional) e o BREEAM (Reino Unido).

The GREENGUARD brand certifies products that guarantee the highest standards of indoor air quality.

All LOVE TILES collections in porcelain stoneware, monoporosa and laminated stoneware have obtained the GREENGUARD GOLD certification, that is, the UL standard with the strictest limits on VOC (Volatile Organic Compounds) emissions, thus being in a position to guarantee the best health conditions for people who live and dwell in indoor spaces. Therefore, they can be used in environments such as schools and healthcare facilities, frequented by sensitive people, such as children and the elderly.

GREENGUARD GOLD is a widely recognised certification, required by sustainable construction programmes and by design and construction regulations around the world, such as LEED (international) and BREEAM (UK).

La marque GREENGUARD certifie des produits qui garantissent les plus hauts standards de qualité de l'air dans les espaces intérieurs.

Toutes les collections LOVE TILES en grés cérame, monoporosa e grés laminé ont obtenu la certification GREENGUARD GOLD, c'est-à-dire, la norme UL avec les limites les plus strictes d'émissions de COV (composés organiques volatils), étant ainsi en mesure de garantir les meilleures conditions sanitaires aux personnes qui vivent et habitent les espaces intérieurs. Ils peuvent donc être utilisés dans des environnements tels que les écoles et les établissements de santé, fréquentés par des personnes sensibles, comme les enfants et les personnes âgées.

GREENGUARD GOLD est une certification largement reconnue et exigée par les programmes de construction durable et les réglementations de conception et de construction dans le monde entier, telles que LEED (international) et BREEAM (Royaume-Uni).

Technical information

Die Marke GREENGUARD zertifiziert Produkte, die die höchsten Standards der Luftqualität in Innenräumen garantieren.

Alle LOVE TILES-Kollektionen aus Feinsteinzeug, Monoporös und laminiertem Feinsteinzeug haben die GREENGUARD GOLD-Zertifizierung erhalten, d.h. die UL-Norm mit den strengsten Grenzwerten für FOV-Emissionen (Flüchtiger Organischer Verbindungen) und sind somit in der Lage, die besten Gesundheitsbedingungen für Menschen, die in Innenräumen leben und wohnen, zu gewährleisten. Daher, können sie in Umgebungen wie Schulen und Gesundheitseinrichtungen eingesetzt werden, die von empfindlichen Menschen wie Kindern und älteren Menschen frequentiert werden.

GREENGUARD GOLD ist eine Zertifizierung, die weithin anerkannt und von nachhaltigen Bauprogrammen und Design- und Bauvorschriften auf der ganzen Welt gefordert wird, wie LEED (international) und BREEAM (UK).

Марка GREENGUARD сертифицирует продукцию, которая гарантирует самые высокие стандарты качества воздуха в помещениях.

Все коллекции керамогранита, монопористого и ламинированного керамогранита LOVE TILES были сертифицированы GREENGUARD GOLD, то есть стандартом UL, с самыми строгими ограничениями на выбросы ЛОС (летучих органических соединений), что позволяет гарантировать наилучшее состояние здоровья людей, которые проживают или посещают внутренние пространства населенных пунктов. Поэтому данные материалы можно использовать в таких местах, как школы и медицинские учреждения, где могут присутствовать такие чувствительные люди, как дети и пожилые люди.

GREENGUARD GOLD является широко признанной сертификацией и требуется программами самообеспеченного строительства и всемирными нормами проектирования и строительства, такими как LEED (международный) и BREEAM (Великобритания).

Il marchio GREENGUARD certifica i prodotti che negli ambienti interni garantiscono i più elevati standard di qualità dell'aria.

Tutte le collezioni LOVE TILES in gres porcellanato, monoporosa e gres laminato hanno ottenuto la certificazione GREENGUARD GOLD, cioè lo standard di UL con i limiti più stringenti di emissioni di VOC, e sono perciò in grado di assicurare la migliore salubrità alle persone che vivono e che abitano gli ambienti. Per questo possono essere impiegate in ambienti come scuole e strutture sanitarie, frequentate da soggetti sensibili come i bambini e gli anziani.

GREENGUARD GOLD è una certificazione ampiamente riconosciuta e richiesta dai programmi di edilizia sostenibile e dai regolamenti di progettazione e costruzione in tutto il mondo, come il LEED (internazionale) e il BREEAM (UK).

TECNOLOGIA DE VANGUARDA

Cada matéria prima natural utilizada, cada processo produtivo e cada tecnologia da complexa actividade da unidade industrial da Love Tiles, são estudadas de forma a minimizar o impacto ambiental, poupando e reciclando, com a vontade de transformar desperdícios em recursos e otimizar a utilização da energia produzida. A Love Tiles está na vanguarda na adoção de medidas ecologicamente sustentáveis as quais são demonstradas pelos mais minuciosos controlos quotidianamente efectuados.

CUTTING-EDGE TECHNOLOGY

Each raw material used, each productive process and each technology of the complex activity of the Love Tiles sites are studied in order to reduce the environmental impact, by saving, recycling, filtering, with the will of transforming the waste in resources and optimize the use of energy. Love Tiles is on the cutting-edge of adopting ecologically sustainable practices and this is demonstrated by the most accurate controls, repeated on a daily basis.

TECNOLOGIE D'AVANT-GARDE

Chaque matière première, chaque processus productif et chaque technologie de la complexe activité des établissements de Panariagroup sont étudiés de façon à limiter l'impact environnemental en épargnant, recyclant et filtrant avec la volonté de transformer les déchets en ressources et optimiser l'usage de l'énergie produite. Gres Panaria Portugal est à l'avant-garde dans l'action et les pratiques pour l'environnement comme le démontrent les contrôles les plus exigeants répétés au quotidien.

SPITZENTECHNOLOGIE

Love Tiles hat die verwendeten Rohstoffe, Produktionsverfahren und Techniken in der komplexen Unternehmensaktivität im Bereich der industriellen Produktion des Unternehmens im Hinblick auf die Umweltauswirkungen eingehendst analysiert. Materialeinsparungen und Recycling stehen auf der Tagesordnung. Aus Abfällen werden Ressourcen. Die Nutzung freigesetzter Energie ist optimiert. Love Tiles ist führend, was die Verwendung von ökologisch nachhaltigen Maßnahmen betrifft. Täglich minutios durchgeführte Kontrollen sind der Beweis dafür.

НОВЕЙШИЕ ТЕХНОЛОГИИ

Используемое сырьё, каждый производственный процесс и каждая технологическая цепочка комплексной деятельности Love Tiles изучаются с целью уменьшения воздействия на окружающую среду за счет энергосбережения, переработки, фильтрации, с намерением превратить отходы в ресурсы и оптимизировать использование энергии. Love Tiles находится в авангарде внедрения eco-friendly методов, о чем свидетельствуют самые тщательные ежедневные проверки.

TECNOLOGIA ALL'VANGUARDIA

Ciascuna delle materie prime naturali utilizzate, ogni processo produttivo e ogni tecnologia della complessa attività dell'unità industriale di Love Tiles, sono studiati per ridurre al minimo l'impatto ambientale, risparmiando e riciclando, con la volontà di trasformare i rifiuti in risorse e ottimizzare l'utilizzo dell'energia prodotta. Love Tiles è all'avanguardia nell'adozione di misure ecologicamente sostenibili, dimostrate dai più rigorosi controlli quotidiani effettuati.

A CERTIFICAÇÃO AMBIENTAL

A unidade industrial da Love Tiles obteve certificações ambientais internacionais de grande prestígio. Entidades e organismos de controlo reconheceram oficialmente o trabalho feito pela empresa para a salvaguarda dos recursos naturais do planeta. Esta certificação testemunha as boas práticas ambientais da Love Tiles, na salvaguarda do desenvolvimento sustentável. Esta é uma demonstração concreta de como é possível conciliar Qualidade, Inovação Industrial e Design com uma séria política de salvaguarda do ambiente.

THE ENVIRONMENT CERTIFICACION

Love Tiles have obtained the most prestigious International environmental certifications. Agencies and control bodies have officially recognized the work done by the company for the safeguarding of the earth's natural resources. These certifications are proof of the high standards attained by Love Tiles, a company which is a forerunner in terms of sustainable development. These are a clear proof of how it is possible to reconcile quality, industrial innovation and design with a serious policy for environmental safeguard.

LA CERTIFICATION ENVIRONNEMENTALE

Love Tiles a obtenu de prestigieuses certifications environnementales internationales. Les entités et les organismes de contrôle ont officiellement reconnu le travail fourni par l'entreprise pour la préservation des ressources naturelles de la planète. Cette certification témoigne des bonnes pratiques environnementales de Gres Panaria Portugal, pour la protection du développement durable. C'est une démonstration concrète de l'engagement de l'entreprise en termes de Qualité, d'Innovation et de Design, le tout allié à une sérieuse politique de protection de l'environnement.

UMWELTZERTIFIZIERUNG

ie Produktionseinheit der Love Tiles wurde weltweit mit Umweltzertifizierungen von großem Prestige ausgezeichnet. Körperschaften und Kontrolleinrichtungen erkannten offiziell das Unternehmen für seine Arbeit zum Erhalt der Naturressourcen auf der Erde an. Die Zertifizierungen bezeugen die guten Umweltpolitiken der Love Tiles für die Wahrung der nachhaltigen Entwicklung. Dies ist ein konkreter Beweis dafür, dass es möglich ist, Qualität, industrielle Innovation und Design mit einer ernsthaften Politik der Umwelterhaltung zu vereinbaren.

ЭКОЛОГИЧЕСКАЯ СЕРТИФИКАЦИЯ

Производственное предприятие Love Tiles получило престижные международные экологические сертификаты. Юридические лица и контролирующие органы официально признали работу, проделанную компанией по охране природных ресурсов планеты. Данная сертификация свидетельствует о хороших методах защиты окружающей среды Love Tiles для обеспечения устойчивого развития. Это конкретная демонстрация того, как можно совместить качество, промышленные инновации и дизайн с серьезной политикой защиты окружающей среды.

A CERTIFICAZIONE AMBIENTALE

L'unità industriale di Love Tiles ha ottenuto prestigiose certificazioni ambientali internazionali. Enti e organismi di controllo hanno ufficialmente riconosciuto il lavoro svolto dalla società per la salvaguardia delle risorse naturali del pianeta. Questa certificazione attesta le buone pratiche ambientali di Love Tiles, nella tutela dello sviluppo sostenibile. Si tratta di una concreta dimostrazione di come sia possibile conciliare Qualità, Innovazione Industriale e Design con una seria politica di tutela dell'ambiente.

UTILIZAÇÕES PREVISTAS | INTENDED USES | DOMAINES D'EMPLOI | VERWENDUNGSZWECKE | ПРЕДПОЛАГАЕМОЕ ИСПОЛЬЗОВАНИЕ | USI PREVISTI

As características técnicas bem como a facilidade de instalação, com ou sem colas (instalação a seco em relva, gravilha ou pavimentos sobreelevados), fazem das placas cerâmicas Love Tiles 20MM a melhor solução para a pavimentação de espaços exteriores sejam eles públicos ou privados, tais como jardins, garagens, caminhos pedonais, terraços, piscinas, áreas urbanas, etc.

Trata-se igualmente de uma boa solução para combinar espaços interiores e exteriores.

The characteristics of the product and the ease of installation, both with or without adhesive (dry installation on grass, gravel, or elevated floors), make the 20MM thick porcelain tile by Love Tiles the best solution for external flooring of public and residential areas, such as urban spaces, pavements, garden paths, car parks, terraces, swimming pool edges, bathing facilities, parks and much more.

The best solution to match external and internal spaces.

Les caractéristiques du produit ainsi que l'extrême facilité de pose aussi bien à sec (sur herbe, gravier, sols surélevés) qu'avec adhésif, font du grès cérame Love Tiles épaisseur 20MM, la meilleure solution pour les pavages externes de zones publiques et résidentielles: places urbaines, trottoirs, voies piétonnes, parkings, terrasses, bords de piscine, établissements balnéaires, aménagement public paysager et bien d'autres domaines encore.

Une solution optimale pour obtenir un ensemble parfaitement coordonné entre intérieur et extérieur.

Die Produkteigenschaften und extreme Einfachheit sowohl der Trockenverlegung (auf Gras, Kies, als Doppelboden) als auch der Klebverlegung, machen das Feinsteinzeug von Love Tiles mit 20MM Stärke zur besten Lösung bei Bodenbelägen im Außenbereich von öffentlichen und privaten Anlagen: Stadtplätze, Bürgersteige, Wege, Parkplätze, Terrassen, Poolumrandungen, Badeanlagen, öffentliche Grünanlagen und vieles mehr.

Die beste Lösung um eine optimale Koordination zwischen Innen- und Außenbereich zu erhalten.

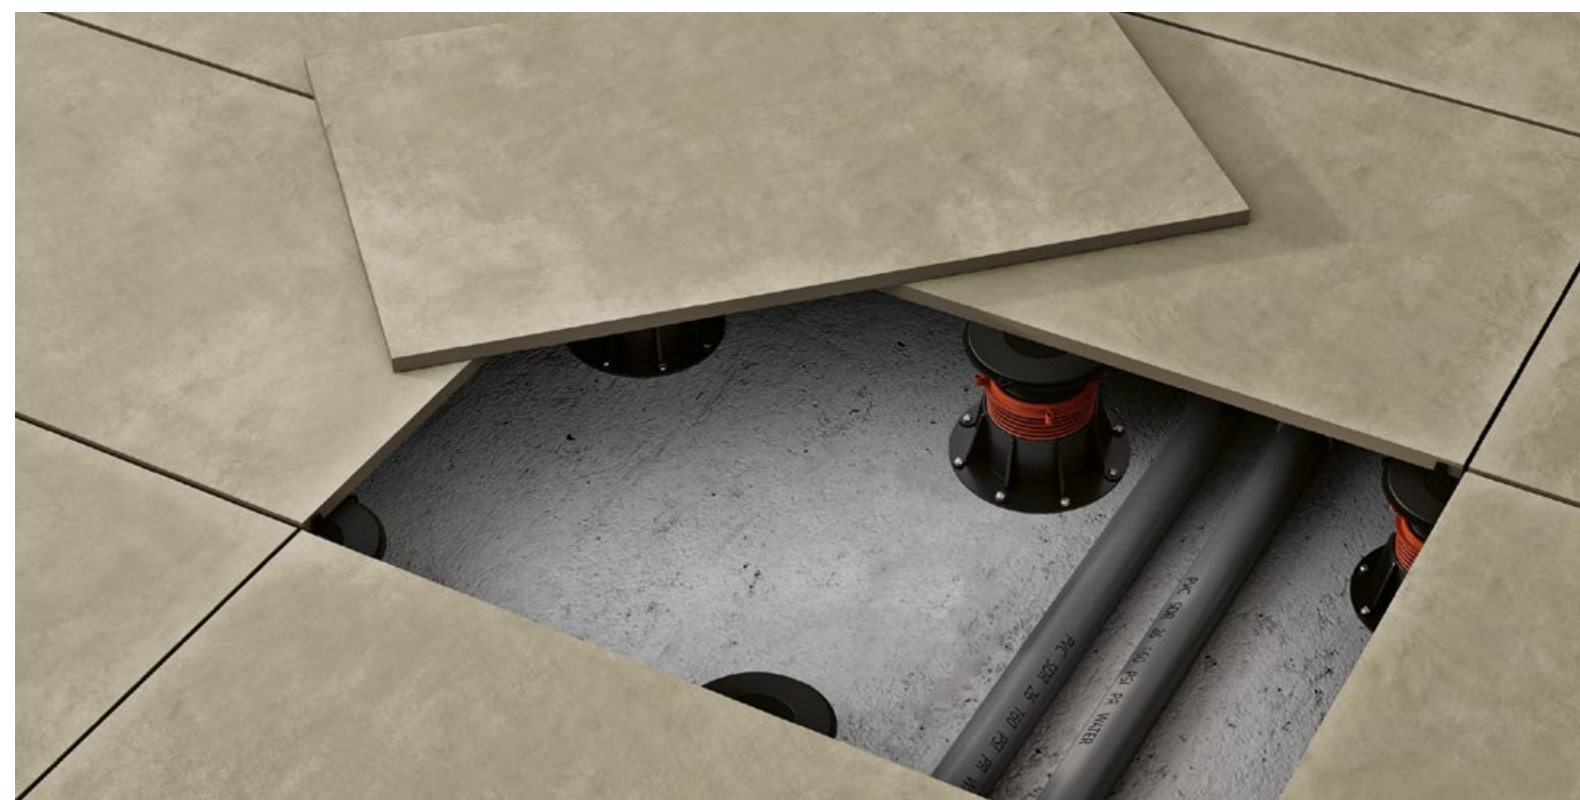

Технические характеристики и простота укладки, с или без использования клея (сухая укладка поверх травы, поверх гравия или фальшпола), делают керамогранит 20 мм от Love Tiles отличным решением для мощения различных пространств, садов, гаражей, пешеходных дорожек, террас, плавательных бассейнов, городских районов и т.д.

Тажке является хорошим решением для комбинирования пространств внутренних и наружных.

Le caratteristiche tecniche e la facilità di posa, sia a secco (su erba, ghiaia, in pavimenti sopraelevati) che a colla, rendono le piastrelle in ceramica 20MM Love Tiles la migliore soluzione per la pavimentazione di spazi esterni, siano essi pubblici o privati, come giardini, garage, passaggi pedonali, terrazze, piscine, aree urbane, ecc.

È anche una buona soluzione per ottenere un ottimo coordinabilità tra interno ed esterno.

Technical information

- Antes de iniciar o assentamento do material cerâmico, deverá ter em consideração os seguintes aspetos:
- Verificar se o material cerâmico é indicado para utilizar no local selecionado de acordo com as suas especificações e características técnicas;
 - Verificar se existe material suficiente para realizar a obra;
 - Confirmar nas caixas se o produto é da mesma tonalidade, escolha e calibre.

O bom desempenho do material cerâmico depende fortemente das condições de aplicação pelo que é de extrema importância garantir os seguintes pressupostos:

- Before (beginning the) laying (of) ceramic material, you should take the following aspects into account:
- Check if the ceramic material is suitable for (use at) the selected site, according to its specifications and technical characteristics;
 - Check whether there is enough material to conclude the work;
 - Check the boxes to see/confirm in the boxes if the product is in the same shade, choice and caliber.

The good performance of the ceramic material depends strongly on the conditions of application for which it is extremely important to ensure the following assumptions:

- Avant de commencer la pose du matériau céramique, les aspects suivants devront être pris en considération:
- Vérifier si le matériau céramique est indiqué pour une utilisation dans le lieu choisi, conformément à ses spécifications et caractéristiques techniques;
 - Vérifier s'il existe la quantité de matériau suffisante pour réaliser le chantier;
 - Confirmer dans les boîtes si le produit est du même ton, de la même qualité, et du même calibre.

La bonne performance du matériau céramique dépend fortement des conditions d'application. Il est donc extrêmement important de garantir les conditions préalables suivantes:

- Vor dem Beginn der Verlegearbeiten sollten Sie folgende Punkte berücksichtigen:
- Bitte überprüfen Sie, ob die gewählte Fliese laut ihrer Oberflächenbeschaffenheit und ihren technischen Eigenschaften geeignet für das Einsatzgebiet ist;
 - Bitte prüfen Sie nach, ob die Menge der gewählten Fliese ausreicht, um das geplante Bauprojekt fertig zu stellen;
 - Bitte prüfen Sie, ob die Fliesen aus verschiedenen Kartons dieselbe Beschaffenheit, (Ton, Wahl und Kaliber) haben.

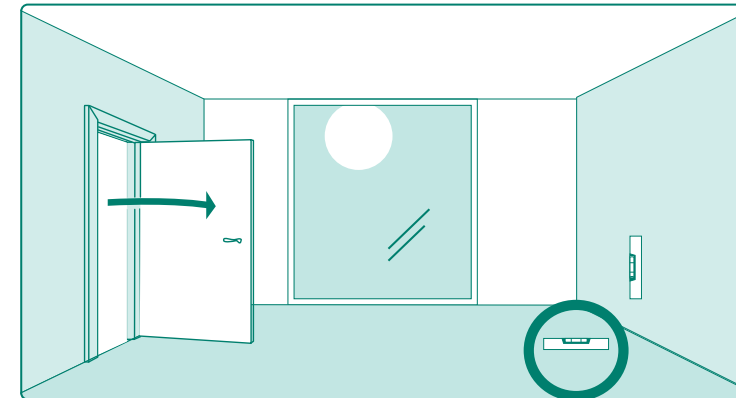

- Die Leistungsfähigkeit der Fliese hängt stark davon ab, wie die Fliesen verlegt werden. Daher ist es sehr wichtig, die folgenden Punkte zu beachten:

- Перед началом работ по укладке керамического материала необходимо учесть следующие моменты:
- Проверить, подходит ли керамический материал для использования в назначенном месте согласно его свойствам и техническим характеристикам;
 - Проверить, имеется ли материал в количестве, достаточном для производства работ;
 - Проверить по упаковкам, является ли продукция того же оттенка, ассортимента и размера.

Хорошие эксплуатационные показатели использования керамического материала сильно зависят от условий кладки, поэтому исключительно важно обеспечить следующие предпосылки:

- Prima di iniziare la posa del materiale ceramico, occorre tener conto dei seguenti aspetti:
- Controllare che il materiale ceramico sia idoneo per l'uso nella posizione selezionata secondo le sue specifiche e caratteristiche tecniche;
 - Verificare se c'è abbastanza materiale per eseguire il lavoro;
 - Confermare sulle scatole se il prodotto è della stessa tonalità, selezione e calibre.

Le buone prestazioni del materiale ceramico dipendono in gran parte dalle condizioni di posa ed è quindi estremamente importante garantire i seguenti presupposti:

01

O SUPORTE
O suporte deve apresentar-se estável, limpo de resíduos, fendas e poeiras. Deverão ser respeitados os tempos de cura e estabilidade dos tratamentos a que possa ter sido sujeito. Deve fazer-se a verificação da planaridade do mesmo, procedendo à regularização, se necessário com a ajuda de produtos adequados a esse fim. Estes aspetos são vitais para pavimentos e revestimentos cerâmicos.

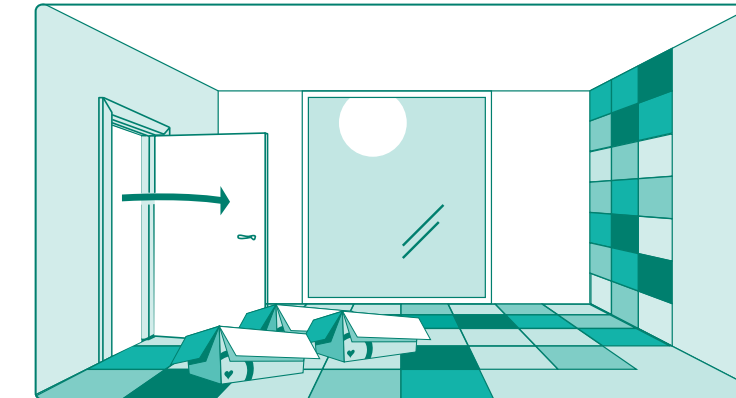

SUPPORT
The support must be stable, free of debris, dust and cracks. Curing times and stability of the treatments to which the support may have been subjected should be respected. You should check its flatness and stabilize it, if necessary with the help of products suitable for the purpose. These aspects are vital for wall and floor ceramic tiles.

LE SUPPORT
Le support doit être stable, exempt de résidus, fentes et poussières. Les temps de durcissement et de stabilité des traitements auxquels il doit être soumis devront être respectés. La planéité du support doit être vérifiée et le nivellement doit être réalisé si cela est nécessaire, à l'aide de produits appropriés. Ces aspects sont essentiels pour les revêtements de sol et muraux céramiques.

DER UNTERGRUND
Der Untergrund muss stabil, sauber, sowie frei von Rissen und Staub sein. Sollte der Untergrund vor dem Verlegen der Fliesen speziell behandelt werden müssen, so sollten Sie darauf achten, dass die Behandlung gut gelungen und abgeschlossen ist, bevor Sie die Fliesen verlegen. Sie sollten den Untergrund inspizieren. Falls er nicht eben ist, muss er mit Hilfe von passenden Produkten grundiert werden. Diese Vorsicht ist angebracht und eine unabdingbare Voraussetzung für das fachgerechte Verlegen von Boden- und Wandfliesen.

ОПОРНАЯ ОСНОВА
Опорная основа должна быть устойчивой, очищенной от отходов, трещин и пыли. Должны соблюдаться сроки полного высыхания и устойчивости процессов обработки, которым она может быть подвержена покрытия. Следует произвести проверку на плоскостность и, если нужно, отрегулировать ее с использованием предназначенных для этого материалы. Эти аспекты являются жизненно важными при установке керамических напольных покрытий и облицовке.

SUPPORTO
Il supporto deve essere stabile, privo di sporczia, polvere e crepe. Le tempistiche di presa e di stabilità dei trattamenti a cui potrebbe essere stato sottoposto devono essere rispettate. Occorre controllare la sua planarità, livellandolo, se necessario, con l'aiuto di prodotti idonei a tale scopo. Questi aspetti sono fondamentali per pavimenti e rivestimenti in ceramica.

02

O MATERIAL
Para obter um melhor efeito visual do produto, aconselha-se a utilização, alternada, de peças cerâmicas retiradas de várias embalagens em simultâneo. Caso o produto seja desestabilizado ou tenha gráfica e tonalidade diferente, deverá ser aplicado de forma aleatória.

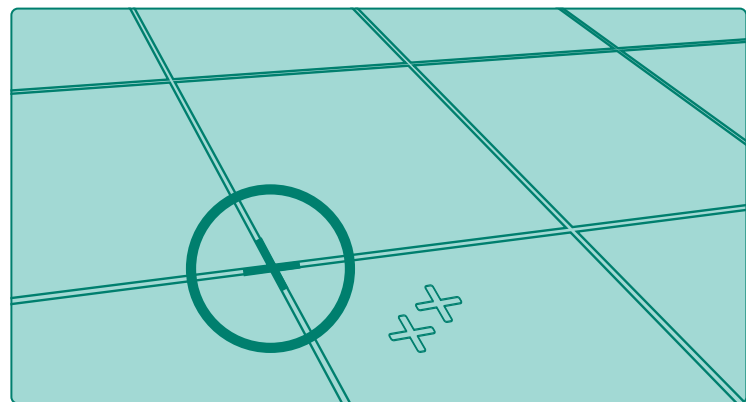

MATERIAL
For a better visual effect of the product, it is advisable to use alternating ceramic pieces taken from various packages simultaneously. If the product has shade variations or has different graphics and shades, it should be applied randomly.

LE MATÉRIAU
Pour obtenir un meilleur effet visuel avec le produit, il est conseillé d'utiliser de forme alternée des pièces céramiques retirées simultanément de plusieurs emballages. Si le produit est dénuancé ou a un aspect graphique différent et une tonalité différente, il devra être appliqué de forme aléatoire.

DAS MATERIAL
Damit Sie das beste Ergebnis erzielen, ist es ratsam, die Fliesen immer aus verschiedenen Paketen zu wählen und in regelmäßig abwechselnder Folge zu verlegen. Falls das Produkt diverse Farbschattierung, einen unterschiedliche Farbton oder grafisches Design aufweist, müssen die Fliesen auf diese Weise verlegt werden.

МАТЕРИАЛ
Для получения лучшего визуального эффекта советуем использовать попеременно керамические образцы, беря их из разных коробок одновременно. Если продукция без оттенков или с различающимися графическими изображениями и тональностью, установка должна осуществляться в произвольном порядке.

MATERIALE
Per ottenere un migliore effetto visivo del prodotto, si consiglia di utilizzare, in modo alternato, pezzi in ceramica prelevati contemporaneamente da diverse scatole. Se il prodotto è stonalizzato o ha una grafica e tonalità diversa, deve essere applicato in modo casuale.

03

JUNTAS DE ASSENTAMENTO

Tendo em vista uma perfeita aplicação das peças cerâmicas, deve usar-se obrigatoriamente juntas de assentamento. Estas cumprem importantes funções estéticas e técnicas, facilitando o alinhamento dos materiais, absorvendo eventuais deformações que se possam fazer sentir na estrutura – chão e parede – e impedindo, assim, a transmissão destas deformações às peças cerâmicas.

Aconselhamos a utilização de niveladores aquando da aplicação de material de grandes formatos – 45x120, 35x100, 60x90 e 80x80.

Utilizar as juntas mínimas recomendadas de forma a garantir um bom aspeto estético das peças cerâmicas, bem como respeitar as normas de aplicação.

NOTA: independentemente dos valores aqui apresentados, o aplicador deverá sempre seguir as normativas dos países onde está a fazer este trabalho de aplicação.

JOINTS FOR TILE-LAYING

For a perfect application of the ceramic pieces, you should definitely use joints. They fulfill important aesthetic and technical functions, facilitating alignment of the materials, absorbing any possible deformation liable to be felt in the structure - floor and wall - thus preventing the transmission of deformations to the ceramic pieces.

We advise the use of leveling systems when applying big ceramic formats material – 45x120, 35x100, 60x90 and 80x80.

Use the minimum recommended joints so as to ensure a good aesthetic aspect of the ceramic pieces, and respect the rules of application as follows.

NOTE: Regardless of the values presented here, the person applying it should always follow the regulations of the countries where he is doing this application work.

JOINTS DE POSE

L'utilisation de joints de pose est obligatoire afin d'obtenir une pose parfaite des pièces céramiques., Ils remplissent une importante fonction esthétique et technique. Ils facilitent l'alignement des matériaux et absorbent d'éventuelles déformations qui peuvent se produire dans la structure – sols et murs – et empêchent donc la transmission de ces déformations aux pièces céramiques.

Nous recommandons l'utilisation de niveleurs lors de l'application de matériaux de grand format – 45x120, 35x100, 60x90 e 80x80.

Utiliser Les joints minimaux recommandés afin de garantir un bon aspect esthétique des pièces céramiques et respecter les normes d'application sont les suivants.

REMARQUE: Indépendamment des valeurs ici présentées, l'applicateur devra toujours suivre les réglementations du pays où il réalise ce travail d'application.

DAS VERFUGEN

Um die keramischen Platten perfekt zu verlegen, sollten Sie die Wand oder den Boden ordnungsgemäß verfugen. Die Fugen haben wichtige ästhetische und technische Funktionen. Sie erleichtern das Aufreihen der Fliesen; sie absorbieren eventuelle Verformungen der Wand oder des Bodens, und vermeiden dadurch die Übertragung dieser Verformungen auf die Fliesen.

Wir empfehlen die Benutzung von selbstnivellierenden Abstandhaltern, wenn es darum geht, Fliesen von grösseren Formaten zu verlegen, wie zum Beispiel (45x120, 35x100, 60x90, 80x80). Die empfohlenen Fugenbreiten, welche eine schöne Optik sowie eine regelgerechte Verlegung gewährleisten, sind nachfolgend angegeben.

WICHTIG: Abgesehen von den oben angegebenen Fugenbreiten, muss der Fliesenleger immer den jeweils geltenden landesspezifischen Vorschriften Folge leisten.

ПРОКЛАДКИ

Для получения безукоризненного результата при установке керамических деталей следует обязательно использовать прокладки. Они играют важную эстетическую и техническую роль, облегчая выравнивание материала, вбирая в себя возможную деформацию, которая может чувствоваться в структуре (пола и стены), препятствуя, таким образом, передаче этой деформации керамическим деталям.

Рекомендуем использовать системы выравнивания при укладке крупноформатной плитки - 45x120, 35x100, 60x90 и 80x80.

Использовать рекомендуемые минимальные прокладки, чтобы обеспечить отличный эстетический вид керамических деталей, а также соблюдать правила установки.

ПРИМЕЧАНИЕ: Независимо от приведённых здесь значений, специалист всегда должен соблюдать нормы той страны, в которой производит работы по укладке.

FUGHE

Per una perfetta posa delle piastrelle in ceramica, devono essere eseguite delle fughe. Queste svolgono importanti funzioni estetiche e tecniche, facilitando l'allineamento dei materiali, assorbendo eventuali deformazioni che potrebbero manifestarsi sulla struttura – pavimento e parete – e quindi prevenendo la trasmissione di queste deformazioni alle piastrelle in ceramica. Si consiglia l'uso di livellatori quando si applicano materiali di grande formato – 45x120, 35x100, 60x90 e 80x80.

Utilizzare le fughe minime raccomandate per garantire un buon aspetto estetico delle piastrelle in ceramica e rispettare le modalità di posa.

NOTA: indipendentemente dai valori sopra riportati, il posatore deve fare sempre riferimento alle specifiche normative vigenti nel paese in cui sta eseguendo questo lavoro di posa.

	aplicação application pose anwendung демонстрация posa

* para as cores escuras recomenda-se acrescentar 2mm à junta mínima. Consultar a ficha técnica do respetivo produto no site.

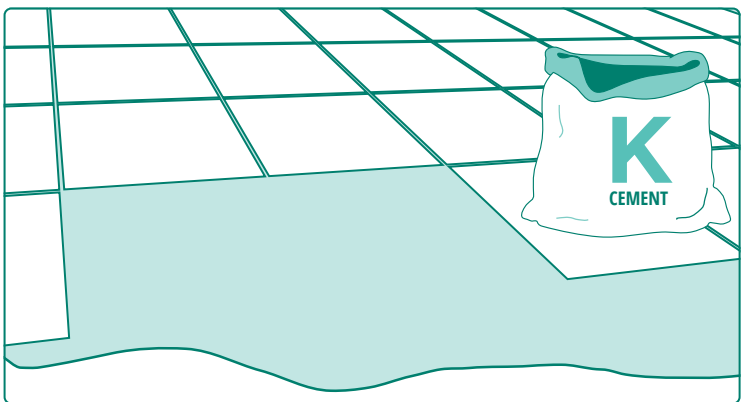

* it's recommended to increase in 2mm the minimum joint in the darker colours. For further information please go to our website and read product's technical data sheet.

* pour les couleurs foncées il est recommandé de rajouter 2mm au joint minimum. Consultez la fiche technique du produit respectif sur le site web.

* Bei dunklen Farben wird empfohlen, 2 mm zur Mindestfuge noch weiter hinzuzufügen. Konsultieren Sie das technische Datenblatt des Produkts auf der Website.

* для темных цветов рекомендуется добавить 2 мм к минимальному шву. Обратитесь к техническим данным соответствующего продукта на веб-сайте.

* Per i colori scuri si consiglia di aggiungere 2 mm al giunto minimo. Consultare la scheda tecnica del rispettivo prodotto sul sito web.

04

COLA E ARGAMASSAS

As argamassas, argamassas de rejuntamento, cimentos-colas e colas a utilizar deverão ter em conta o suporte e o fim a que se destinam as peças cerâmicas - interior, exterior, parede, pavimento - e a sua tipologia - monoporosa ou grés esmaltado.

Deverá seguir as instruções indicadas pelo fabricante sobre a sua utilização.

GLUE AND MORTAR

The mortars, grouting mortars, glue-cements, and glues to be used should take into account both the support and the intended purpose of the ceramic pieces - indoor, outdoor, wall, floor - and their typology – mono-porous / monoporosa or glazed stoneware.

You should follow the instructions provided by the manufacturer on its use.

COLLE ET MORTIERS

Les mortiers, mortiers de rejointoiement, ciments-colles et colles à utiliser devront tenir compte du support et de la fin à laquelle sont destinées les pièces céramiques - intérieur, extérieur, mur, plancher - ainsi que de leur typologie - monoporosa ou grés émaillé.

Vous devez suivre les instructions indiquées par le fabricant pour son utilisation.

KLEBER UND MÖRTEL

Welchen Mörtel, welchen Zementkleber oder welche andere Verbundmittel Sie am besten verwenden, hängt sowohl vom Untergrund als auch vom Material (Monoporosa, glasierte Fliesen) ab. Es kommt ebenso darauf an, ob die Fliesen im Außen- oder Innenbereich, an der Wand oder am Boden verlegt werden.

Bitte befolgen Sie die Herstellerangaben zum Gebrauch des Produktes.

КЛЕИ И РАСТВОРЫ

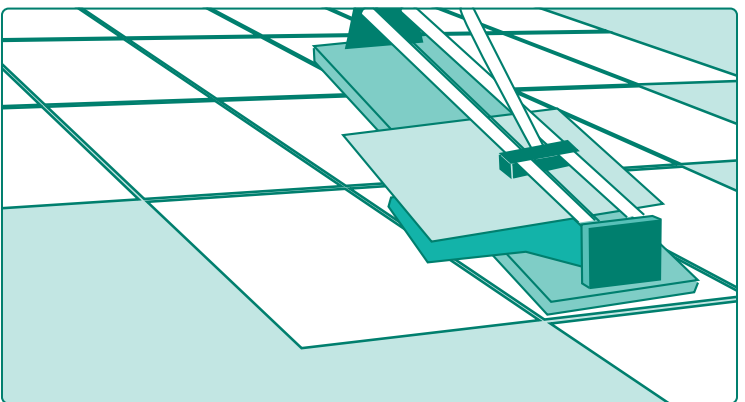

При выборе растворов, тампонажных растворов, цементных клеев и других видов клея необходимо учитывать основу и назначение керамических деталей – наружное, внутреннее, стены, напольное покрытие – и его типологию – монопористый или эмалированный керамогранит.

Необходимо соблюдать инструкции по их применению, разработанные производителем.

COLLE E MALTE

Le malte, malte fuganti, cementi-colla e colle da utilizzare devono tener conto del supporto e della destinazione delle piastrelle in ceramica – interno, esterno, parete, pavimento – e della loro tipologia – monoporosa o gres porcellanato smaltato.

Seguire le istruzioni per l'uso fornite dal fabbricante.

05

INSTRUÇÕES DE CORTE

Recomendamos o corte com arrefecimento de água ou utilização de cortador manual com método de marcação e corte durante o processo de instalação.

Não usar ferramentas elétricas com corte a seco durante o processo de instalação.

Técnicas de instalação impróprias poderão expor o instalador à poeira de sílica de forma prejudicial.

CUTTING INSTRUCTIONS

We recommend wet cutting or the score and snap method during the installation process.

Do not dry cut using power tools during the installation process.

Improper installation techniques could expose installer to harmful silica dust.

INSTRUCTIONS DE DÉCOUPE

Nous recommandons la découpe avec refroidissement d'eau ou usage d'un découpage manuel avec méthode de marpage et découpage pendant la pose.

Ne pas utiliser d'outils électriques ou de découpage à sec pendant la pose.

Des techniques de pose inadéquates pourront exposer le poseur à des poussières de silice et nuire à la santé.

SCHNEIDEEMPFEHLUNG

Wir empfehlen das Nassschneiden oder die Ritz- und Brechmethode während des Installationsprozesses.

Während des Installationsvorgangs nicht mit Elektrowerkzeugen trocken schneiden.

Durch unsachgemäße Installationstechniken kann der Installateur schädlichem Quarzstaub ausgesetzt werden.

ИНСТРУКЦИИ ПО РЕЗКЕ

Мы рекомендуем резку с водяным охлаждением или ручным плиткорезом с маркировкой и методом резки в процессе установки.

Не используйте электроинструменты при сухой резке в процессе установки.

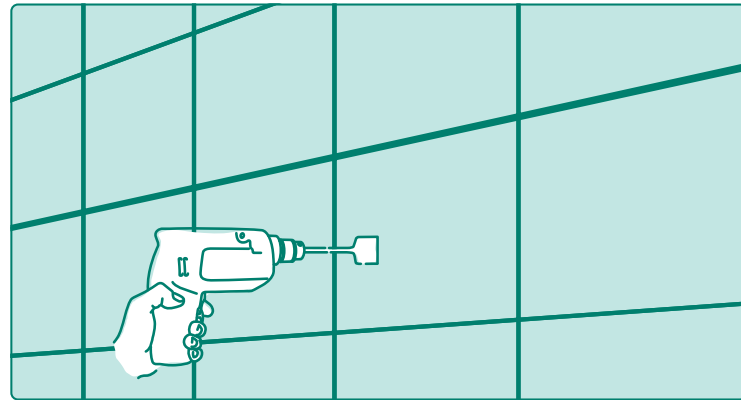

Неправильные методы укладки плитки зачастую сопровождаются выделением большого количества вредной кварцевой пыли, которое в свою очередь может отрицательно воздействовать на укладчика.

ISTRUZIONI PER IL TAGLIO

Si consiglia di utilizzare macchinari con raffreddamento ad acqua o utilizzare una taglierina manuale con un metodo di marcatura e taglio.

Non utilizzare utensili elettrici con taglio a secco.

Tecniche di installazione non corrette possono esporre l'installatore a polvere di silice dannosa per la salute.

06

FUROS

Na furação deverão ser utilizadas brocas cranianas diamantadas com diâmetro adaptável ao furo pretendido.

HOLES

For drilling you should use diamond twist drills with a diameter adaptable to the desired hole.

PERÇAGES

Pour le perçage, utiliser des trépons diamantés avec un diamètre adapté au trou désiré.

LÖCHER

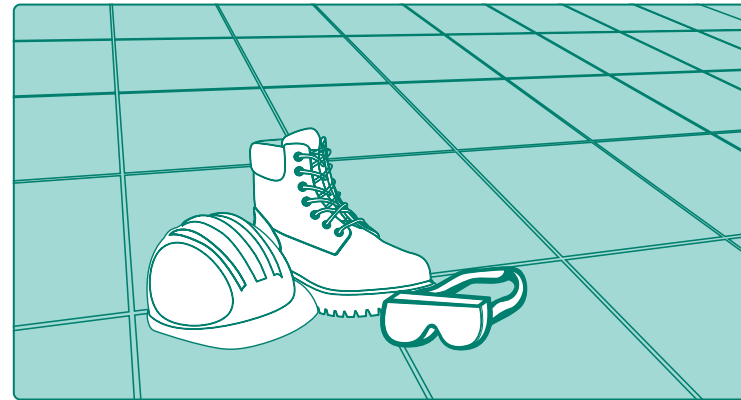

Löcher sollten im gewünschten Durchmesser mittels einer Diamanthammerbohrkrone in die Fliese gebohrt werden.

ОТВЕРСТИЯ

При сверлении отверстий необходимо использовать алмазные сверла диаметра, соответствующего предполагаемому отверстию.

FORI

Per realizzare fori circolari sulle piastrelle devono essere utilizzate delle frese a tazza diamantata con un diametro adattabile al foro stesso.

07

SEGURANÇA NA PREPARAÇÃO E ASSENTAMENTO DO MATERIAL

Aconselha-se a utilização de EPI (equipamento de proteção individual) adequado, nomeadamente, calçado de segurança, luvas de proteção e ainda óculos e proteção auditiva nas operações de corte do material.

Devem ser cumpridas as boas práticas a nível do levantamento e transporte manual de cargas.

SAFETY AND PREPARATION FOR LAYING THE MATERIAL

We advise the use of appropriate PPE (personal protective equipment), namely safety footwear, protective gloves and even goggles (safety glasses) and hearing protection in operations of cutting material.

Good practices must be followed in terms of lifting and carrying loads.

SÉCURITÉ LORS DE LA PRÉPARATION ET DE LA POSE DU MATÉRIAU

Il est conseillé d'utiliser un EPI (équipement de protection individuelle) approprié, notamment des chaussures de sécurité, des gants de protection, mais aussi des lunettes et une protection auditive lors des opérations de coupe du matériau.

Respectez les bonnes pratiques concernant le levage et le transport manuel de charges devront être appliquées.

SICHERHEITSHINWEISE FÜR DAS VERLEGEN VON FLIESEN

Wir empfehlen Ihnen, immer die passende Schutzkleidung zu tragen. Wir ermahnen Sie eindringlich, Schutzschuhe, -handschuhe, -brille sowie Gehörschutz zu benutzen, wenn Sie die Fliesen zuschneiden.

Achten Sie bitte auf die richtige Körperhaltung, wenn Sie Lasten heben und tragen.

ОХРАНА ТРУДА ПРИ ПОДГОТОВКЕ И УКЛАДКЕ МАТЕРИАЛА

Рекомендуется использование подходящих СИЗ (средств индивидуальной защиты), а именно, безопасной обуви, защитных перчаток, а также очков и средств звуковой защиты при резке материала.

Необходимо соблюдать правила безопасности при ручном подъеме и транспортировке грузов.

SICUREZZA NELLA PREPARAZIONE E POSA DEL MATERIALE

Si consiglia l'uso dei DPI (dispositivi di protezione individuale) idonei, quali scarpe antinfortunistiche, guanti di protezione e occhiali, nonché protezione dell'udito nelle operazioni di taglio del materiale.

Devono anche essere rispettate le buone pratiche a livello di sollevamento e movimentazione manuale dei carichi.

08

PROTEÇÃO E LIMPEZA

Imediatamente após o assentamento do material cerâmico recomenda-se que as peças cerâmicas sejam devidamente protegidas. Para remoção de sujidade pós-obra, tais como resto de junta, cimentos, etc, recomenda-se a utilização de um ácido desincrustante tamponado para remoção de todos os resíduos.

Na manutenção diária poderão ser utilizados detergentes comuns, respeitando as diluições recomendadas pelo respetivo fabricante.

Relativamente às peças decoradas, dever-se-á evitar a utilização de produtos de limpeza abrasivos, poderão danificar as peças.

As peças decoradas através da deposição de partículas de titânio - Genesis, acabamento gold, silver e copper - que lhe conferem um aspeto metálico deverão ser manuseadas com cuidado. A limpeza final e de manutenção deste tipo de produto deverá ser feita com detergentes próprios para metais – abrilhantador de aço inox - de forma a criar um efeito antiestático que possa repelir a sujidade e proteger o produto de gorduras e corrosão. A limpeza regular do produto deverá ser feita com um pano humedecido em água ou limpa-vidros, e após secagem deverá ser passado um pano seco.

PROTECTION AND CLEANING

All residues of glue and grout mortar should be cleaned from the surface of the parts immediately after application and in accordance with the manufacturer's instructions. Immediately after the laying of ceramic material it is recommended that the ceramic parts are / will be duly protected. For dirt removal after the work, such as left-over joints, cements, etc., it is recommended that you use a buffered descaling acid to remove all residues. In daily maintenance, ordinary detergents may be used, respecting the dilutions recommended by the respective manufacturer.

Regarding decorated pieces, you should avoid the use of abrasive cleansers that may damage the pieces. Pieces decorated through the depositing of titanium particles - Genesis: Gold, Silver, Copper - which give them a metallic aspect should be handled with care. The final cleaning and maintenance of this type of product should be made with detergents suitable for metals - stainless steel brightener - so as to create an antistatic effect that can repel dirt and protect the product from fats and corrosion. Regular cleaning of the product should be done with a damp cloth moisturized with water or window cleaner, and after it gets dry, a dry cloth shall be used.

PROTECTION ET NETTOYAGE

Tous les résidus de colle et de mortier de jointolement doivent être nettoyés de la surface des pièces immédiatement après l'application et conformément aux instructions du fabricant. Immédiatement après la pose du matériau céramique, il est recommandé de protéger correctement les pièces céramiques. Pour l'élimination de la saleté résultant des travaux, comme les résidus de joints, ciments, etc., il est recommandé d'utiliser un acide tamponné désincrustant. L'entretien quotidien pourra être réalisé avec des détergents ordinaires, en respectant les dilutions recommandées par le fabricant respectif.

Pour les pièces décorées, l'utilisation de produits de nettoyage abrasifs devra être évitée car ils pourront endommager les pièces. Les pièces décorées grâce au dépôt de particules de titane - Genesis: Gold, Silver, Copper - qui lui confèrent un aspect métallique, devront être manipulées avec soin. Le nettoyage final et d'entretien de ce type de produit devra être réalisé avec des détergents spécifiques pour les métaux – agent de brillantage d'acier inox – afin de créer un effet antistatique qui puisse repousser la saleté et protéger le produit des graisses et de la corrosion. Le nettoyage régulier du produit doit être effectué avec un chiffon imbibé d'eau ou de nettoyant pour vitres et, après séchage, on doit passer un chiffon sec.

SCHUTZ UND REINIGUNG

Alle Rückstände von Klebstoff und Fugenmörtel sollten von der Oberfläche der Stücke unmittelbar nach dem Auftragen und in Übereinstimmung mit den Anweisungen des Herstellers gereinigt werden.

Bitte vergessen Sie nicht sofort nach Beendigung der Verlegearbeiten, die verflieste Fläche ordnungsgemäß zu schützen. Waschen Sie die verflieste Fläche mit Säure um etwaigen Schmutz (wie z.B.: Schlieren vom Fugenmaterial, Zement, etc.) zu beseitigen.

Für die alltägliche Pflege empfehlen wir die Verwendung von handelsüblichen Reinigungsmitteln. Beachten Sie bitte die Verdünnungsanweisung des Herstellers des Produktes.

Die Pflege und die Reinigung der keramischen Platten ist sehr einfach und sollte mit neutralen Putzmitteln durchgeführt werden.

Bitte befolgen Sie die Herstellerangaben zum Gebrauch des Produktes. Schleifmittel können zur Beschädigung der Dekore führen und sind daher zu vermeiden. Genesis - Gold, Silver und Copper Stücke die durch die Ablagerung von Titanpartikeln - die ihnen einen metallischen Aspekt geben, verziert sind, sollten mit Vorsicht behandelt werden. Die Endreinigung und Wartung dieses Produkttyps sollte mit für Metalle geeigneten Reinigungsmitteln - Aufheller aus rostfreiem Stahl - durchgeführt werden, um eine antistatische Wirkung zu erzielen, die Schmutz abweisen und das Produkt vor Fetten und Korrosion schützen kann. Die regelmäßige Reinigung des Produkts sollte mit einem mit Wasser oder Glasreiniger angefeuchteten Tuch erfolgen. Nach dem Trocknen sollte man die Flächen mit einem trockenen Tuch abwischen.

ЗАЩИТА И ЧИСТКА

Все остатки клея и цементные затирки необходимо удалить с поверхности плиток сразу же после их нанесения и в соответствии с инструкциями производителя.

Непосредственно после укладки керамического материала рекомендуется принять меры по защите керамических изделий. После удаления загрязнений, возникших в ходе работы, таких как излишки прокладки, цементирования, и т.д., рекомендуется использовать буферную кислоту для удаления всех остатков.

В повседневной чистке можно использовать обычные моющие средства, соблюдая нормы разбавления, указанные изготовителем.

В том, что касается декорированных деталей, следует избегать использование абразивных моющих средств, поскольку они могут повредить детали.

С деталями, декорированными путем осаждения титановых частиц – коллекция Genesis, цвета gold, silver и соррег - придающих им металлический вид, необходимо обращаться осторожно. Их окончательная и повседневная мойка должна производиться моющими средствами, специально предназначенными для металлов (полирующий состав для нержавеющей стали), чтобы создать антистатический эффект для отражения грязи и защиты продукции от жирных веществ и коррозии. Регулярную очистку покрытия из керамогранита следует выполнять тряпкой, смоченной в воде или в чистящем средстве для стекол, а после того, как поверхность высохнет - протереть сухой тряпочкой.

ROTEZIONE E PULIZIA

Tutti i residui di adesivo e stucco devono essere rimossi dalla superficie delle piastrelle subito dopo l'applicazione e secondo le istruzioni del produttore.

Subito dopo la posa del materiale ceramico è consigliabile che le piastrelle in ceramica siano adeguatamente protette. Per rimuovere lo sporco di fine cantiere, come resti di fughe, cementi, ecc, si consiglia di utilizzare un disincrostante acido tamponato per rimuovere tutti i residui.

Nella manutenzione quotidiana possono essere utilizzati dei normali detersivi, secondo le diluizioni raccomandate dal rispettivo fabbricante.

Per quanto riguarda i pezzi decorati, evitare l'uso di detersivi abrasivi, poiché possono danneggiare i pezzi.

I pezzi decorati mediante la deposizione di particelle di titanio - Genesis: Gold, Silver, Copper - che danno loro un aspetto metallico devono essere maneggiati con cura. La pulizia finale e manutenzione di questo tipo di prodotto devono essere eseguite con detersivi per metalli – brillantante per acciaio inox – al fine di creare un effetto statico in grado di respingere la sporcizia e proteggere il prodotto dai grassi e dalla corrosione. La pulizia periodica del prodotto deve essere eseguita con un panno inumidito con acqua o detersivo per vetri e, dopo l'asciugatura, passare un panno asciutto.
